

(as of March 31,2018)

Route name		Starting point	Terminal point	Length
National Expressways (National development arterial expressways,etc.)	Hokkaido Longitudinal Expressway	Hakodate	Wakkanai	681km
	Hokkaido Traverse Expressway	Nemuro Line	Nemuro	694km
		Abashiri Line	Abashiri	
	Sub total			
National Highways	Hidaka Motorway	Tomakomai	Urakawa	120km
	Fukagawa-Rumoi Motorway	Fukagawa	Rumoi	50km
	Asahikawa-Mombetsu Motorway	Asahikawa	Mombetsu	120km
	Obihiro-Hiroo Motorway	Obihiro	Hiroo	80km
	Hakodate-Esashi Motorway	Hakodate	Esashi	70km
	Sub total			
Total length of arterial high-standard highways				(Planned routes) 1,825km

Arterial high-standard Highways	Total length	(As of March 31, 2018)		(Planning as of March 31,2019)	
		Length in service	Service rate (%)	Length in service	Service rate (%)
Nationwide	about 14,000km	11,638km	83%	11,922km	85%
National Expressways	11,520km	8,913(954)km	77(86)%	9,056(1,017)km	79(87)%
National Motor Highways (including Honshu- Shikoku Expressway)	about 2,480km	1,771km	71%	1,849km	75%
Hokkaido	1,825km	1,119km	61%	1,165km	64%
National Expressways	1,375km	763(96)km	55(62)%	788(103)km	57(65)%
National Motor Highways	450km	260km	58%	274km	61%

*As for the data on arterial high-standard highways, nationwide (A) and Hokkaido (B) are respectively derived from the data of MLIT (Ministry of land,infrastructure,transport and Tourism) in January 2018 and that of HRDB (Hokkaido Regional Development Bureau).

Numbers in brackets represent the length of ordinary national highways paralleling national expressways, for reference. They are included in the length of arterial high-standard highways.

*The data of Hidaka Motorway between Hidaka-Mombetsu and Hidaka-Atsuga(14km) is not included in that of as of March 31, 2018.
