

Road type	Total length(km)					Remarks
	Nationwide (A)	Hokkaido (B)	B/A (%)	Administered by the Development Bureau(C)	C/A (%)	
Arterial high-standard Highways	11,638	1,119	9.6	424	3.6	Hokkaido Longitudinal Expressway 443km
National expressway	8,913(954)	763(96)	8.6	76(96)	0.9	Hokkaido Traverse Expressway 320km
National Motor Highways (including Honshu-Shikoku Expressway)	1,171	260	14.6	252	14.2	National motor highways paralleling national expressways 96km
Total length of ordinary roads	1,210,911	89,309	-	6,393	-	
National highways	52,933	6,393	-	6,393	-	Number of routes: 48 routes
Prefectural highways	129,603	11,828	-	-	-	Number of routes: 900 routes
Major regional highways	57,898	4,537	-	-	-	Number of routes: 163 routes
ordinary roads	71,705	7,291	-	-	-	Number of routes: 737 routes
Municipal roads	1,028,375	71,088	-	-	-	Number of routes: 116,170 routes

*As for the number on arterial high-standard highways, which is as of March 31 2018, nationwide (A) and Hokkaido (B) are respectively derived from the data of MLIT (Ministry of land,infrastructure,transport and Tourism) in January 2018 and that of HRDB (Hokkaido Regional Development Bureau). The other numbers are derived from Report on Annual Road Statistics 2017 (as of April 1, 2016).

*Numbers in brackets represent the length of ordinary national highways paralleling national expressways, for reference. They are included in the length of arterial high-standard highways.

*The itemized totals in road types may not agree exactly with the figure in the total due to fractional amounts being rounded.
